

# Haircut Delivery Reservation Website

## User Guide

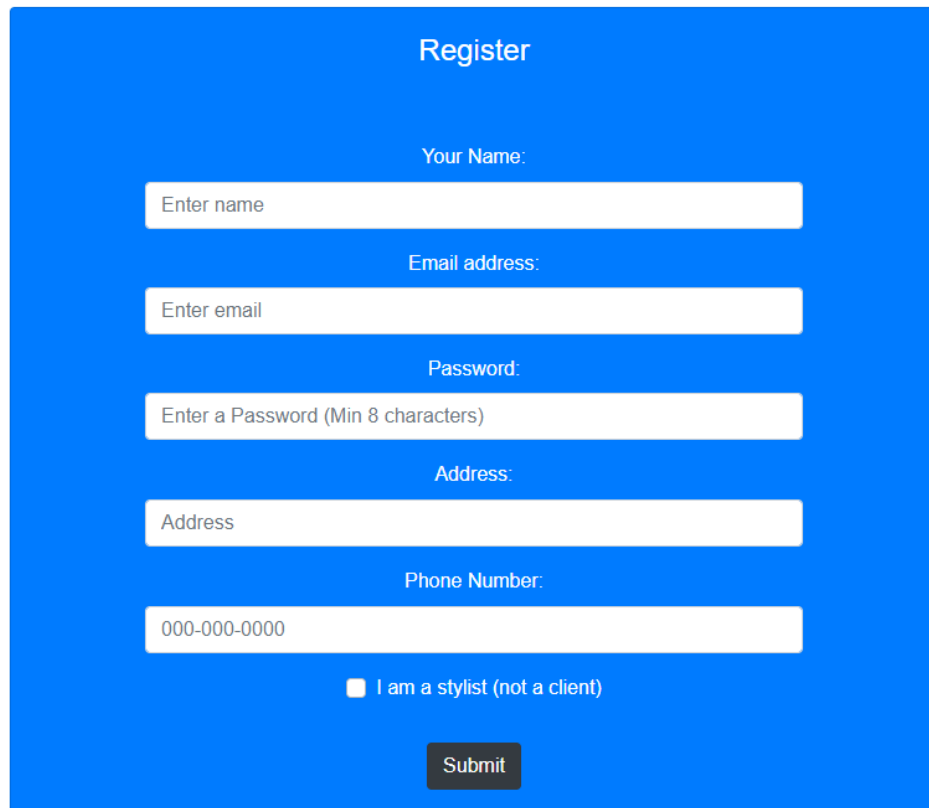

### 1. Home Page

In order to navigate to the homepage, contact your provider to find out the domain “ie: [www.hair-delivery.com](http://www.hair-delivery.com)”. In case that the server is hosted on the same network as you, you can just navigate in your browser to localhost:8080/ (which is also provided as a shortcut in the resources folder of the project). This will take you to the main page where you can see a customizable message (by the administrator through the vue home page file). It looks as follows:

## 2. Sign Up

If you don't have an account, click on the sign up navigation tab on the top right corner. This will lead you to the following form:

A registration form titled "Register" on a blue background. It contains six text input fields: "Your Name:" with placeholder "Enter name", "Email address:" with placeholder "Enter email", "Password:" with placeholder "Enter a Password (Min 8 characters)", "Address:" with placeholder "Address", and "Phone Number:" with placeholder "000-000-0000". Below the fields is a checkbox labeled "I am a stylist (not a client)". At the bottom is a dark grey "Submit" button.

Register

Your Name:

Enter name

Email address:

Enter email

Password:

Enter a Password (Min 8 characters)

Address:

Address

Phone Number:

000-000-0000

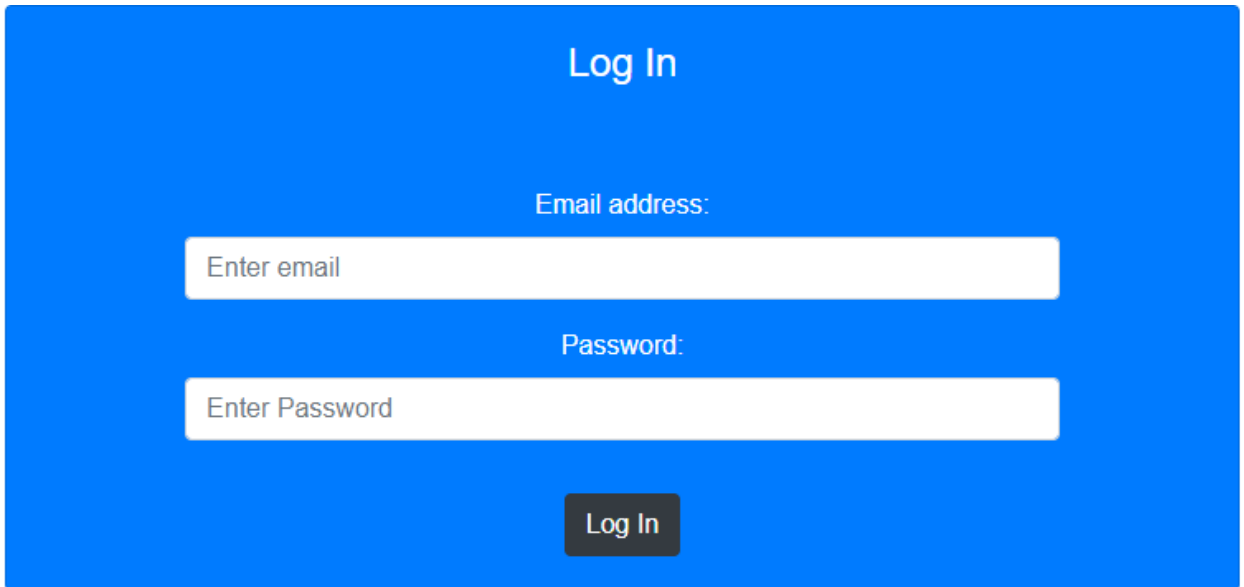

☐ I am a stylist (not a client)

Submit

It is necessary to fill all of the fields as accurate as possible, as this information will be displayed with your stylist so he/she can contact you for your appointments. If you are a stylist and you are creating an account, click on the "I am a stylist (not a client)" checkbox. After you have filled out all of the items, (yes, password must be at least 8 characters long), you can press the Submit button. If the email entered is already linked to an account in the system, the form will prompt you for a new email address as that one is already in use. IF the account was created successfully, a "Success" message will appear and you will be redirected to the log in screen.

### 3. Log In

The log-in screen is pretty simple.

Enter your email address and your password, and then click on the log in button. If you enter correct credentials, you will be redirected to your dashboard, which is personalized to your account.

### 4. Edit Account

If for some reason, you wish to edit your account details, you can click on the account tab in the navigation bar AFTER you have logged in. This will take you to the following form:

Haircut Delivery Reservation Age x +

← → ↻ 🏠 ⓘ localhost:8080/#/account ☆ Incognito ⋮

### Your Account

Your Name:  
Rosanne Lattey (test stylist1)

Email address:  
teststylist1@email.com

Address:  
66196 Scofield Way

Phone Number:  
180-168-3184

☒ I am a stylist

Edit

The fields will populate with your information. If you wish to edit, hit the edit button, which will unlock the fields to make modifications. If you wish to cancel the edit, press the cancel button that pops up when you are on edit mode. If you wish to save the changes, press the update button. If the changes are successful, you will receive a success message and be redirected to your dashboard. It is important to note that changing your account information does not affect your already scheduled reservations, but only the ones that you generate from here on, so that we can keep an accurate historical record.

## 5. Reservations Dashboard

The reservations dashboard allows you to view your reservations, along with some information regarding your phone, address, and the stylist you chose. You can see a preview of a dashboard in the following image. It is important to note that if you are registered as a stylist in the system, you will see both your reservation and the reservations of clients who created an appointment with you. This way you can know where you have to be and your client's contact information.

This dashboard not only allows you to visualize your reservations, but you also have two button options. If you are a client and you generated a reservation from a stylist, you will be able to click on the edit button, compared to stylists not being able to modify reservations for security purposes. This will take you to that specific reservation form where you can view and edit date and time as needed. As for the

delete button, both the client and stylist can opt to cancel the appointment just by clicking the delete button.

## 6. Create Reservation

While logged in, if you click on the create reservation in the navigation bar, you will be redirected to the create reservation form which looks as follows:

The image shows a 'Create a Reservation' form on a blue background. The form consists of three stacked input fields and two buttons at the bottom. The first field is a dropdown menu with 'Pavla Eichmann' selected. The second field is a date picker showing 'Friday, April 24, 2020'. The third field is a time picker showing '2:00 PM'. Below these fields are two buttons: 'Submit' and 'Cancel'.

Create a Reservation

Pavla Eichmann

Friday, April 24, 2020

2:00 PM

Submit Cancel

From here you can choose a stylist from the registered stylists. You can then select a date and a time. All of these fields are required in order to create a reservation. Once you are ready you can click on submit to create the reservation, and this will make it so both you and the stylist selected can see the reservation in your respective dashboards.

## 7. Edit Reservation

Clicking on the edit button of a reservation takes you to the following form:

The image shows a web form titled "Update Reservation" on a blue background. The form contains three input fields: a dropdown menu for the stylist, a date picker for the date, and a time picker for the time. The stylist field is currently set to "Fionnula Braine (test stylist2)". The date field is set to "Saturday, May 2, 2020". The time field is set to "12:00 PM". At the bottom of the form, there are two buttons: "Update" and "Cancel".

Update Reservation

Fionnula Braine (test stylist2)

Saturday, May 2, 2020

12:00 PM

Update Cancel

Fields will be auto populated with the information of the appointment. Appointments can't change the stylist. If you wish to create a new appointment with a different stylist, cancel the original reservation and create a new one. After you are finished editing the time or date, hit submit and the reservation will be updated accordingly to both you and your stylist.

## 8. Security

The web application does contain security to prevent intruders. To start off, you can't access any webpage except the home page, sign up, and log in screens unless you are logged in. If you try to access other forms, you will be redirected to the log in page. Also, the server contains passport JWT authentication which ensures that you are logged in before attempting to access the database. The server also encrypts your password before storing it in the database, so do not be afraid of hackers stealing your passwords! Finally, if you try to access an unexisting sub-page, you will be redirected to the home page.

## **9. F.A.Q.**

*How do I change my password?*

Currently there is no functionality in the website to change or restore your password. This will be implemented in the next release.

*How are the reservations sorted in my dashboard?*

Reservations are sorted based on creation date. We will add different sorting functionality in the next release.

*Can other users see my reservations?*

No. Only you and the selected stylist can see the appropriate reservation.

*How do I contact my stylist once I create a reservation?*

Your dashboard contains the stylist's phone number in the reservation.

*Can other users see my data?*

No. The only people that can see your data is your stylist so they can drive to your home and perform their services. They can also see your contact information in case there need to be any special arrangements.
